If the meter will be removed, just tell us the date you wish to terminate your electrical energy services. We will read and remove the meter and calculate a final bill.

Membership and deposit fees are also refundable. They will either be applied to your last bill or remitted by check.

It will be necessary that you keep us informed of your new address in the event Capital Credits are approved for payment.

If the meter will not be removed and you are a rural location, please call us with a final meter reading and closing date. We will also need the name and address of the party who will be responsible for the service (See Transfer of an Account).

We will need the following information when you call us:

Meter No. \_\_\_\_\_ Closing Date \_\_\_\_\_
